Dear Friends,

Welcome to the roaring 20's! This is going to be a great decade! We have added some new plants and are phasing out others. One tree in particular we have been retiring is Ornamental Pear. As more states are flagging the tree as invasive, we have decided to offer similar, but superior, alternatives. In addition, the darn tree has been hit hard by cold winters and Fireblight.

Not surprisingly, Oaks are flying out the doors. I think after last winter's polar vortex (remember Chicago being 10 degrees colder than the Antarctica?), architects and landscapers are going back to the tried and true trees. Oaks, Maples, Linden, Hackberry, Elm and Locust, all seem to thrive this summer, following that cold snap.

We wish you stable temperatures, ample rain, (but not too much!) and lots of sunshine in 2020. Thank you for your generous support of our family nursery.

Respectfully,

C. Todd Sullivan
